DETAILED ACTION

1. This action is in response to the amendment filed on 10/31/2007.

Allowable Subject Matter

2. Claims 1-15 and 17-21 are allowed.

The following is an examiner's statement of reasons for allowance:

The above-mentioned claims are allowable over prior arts because the cited prior arts of record fail to teach or render obvious the limitations in independent claims, and the subsequent dependent claims.

The prior arts of record do not teach or suggest the access restriction information setting method includes "a fourth step for setting up, on the target port of said second storage device which is selected in said third step, second access restriction information based on said first access restriction information of a port of said first storage device to which a volume, of which the port is utilized for an access, is assigned so that said first host computer is permitted to access said first storage device via the target port of said second storage device, while said second host computer is not permitted to access said first storage device via the target port of said second storage device." The claims are therefore considered to be in condition for allowance as being novel and nonobvious over the prior arts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
